TODAY IN HISTORY

Today, in 1846, American inventor Elias Howe patented the sewing machine, revolutionizing the clothing and textile industries. This invention made creating clothes much faster and with greater precision!

On September 10, 2008, the Large Hadron Collider, the world's largest and most powerful particle accelerator, was powered up for the first time in Switzerland. It's a vital tool in understanding the fundamental structure of the universe!

In 1977, engineer William Cobb demonstrated the first solar-powered car at the General Motors Powerama in Chicago. This early innovation paved the way for future advancements in renewable energy and environmentally friendly vehicles!
