Founded in 1978, The Landing School is the oldest operating school of its type in the U.S. and the first to be accredited by the Accrediting Commission of Career Schools and Colleges (ACCSC). The Landing School is a non-profit marine trades school that provides students the education and training to turn their passion for boats into rewarding careers. TLS is the only school in the world offering accredited programs in **Yacht Design, Wooden Boatbuilding, Composite Boatbuilding, and Marine Systems** under one roof.

Mission

The Landing School effectively prepares students for careers in the marine industry as designers, builders, systems technicians, and managers.

9-Month Diploma Programs

The **Wooden Boatbuilding** program teaches students to build boats from scratch, producing functional art from plans developed by boat designers.

The **Composite Boatbuilding** program explores a wide range of composite materials and construction methods that are used in the boatbuilding industry.

The **Yacht Design** program teaches students to combine form, layout, and materials to create a range of vessels (racing, cruising, power, commercial, sailing).

The **Marine Systems** program teaches marine industry principles used worldwide to keep vessels of all types operating properly.

Why TLS?

- Close-knit community with small classes
- Hands-on learning with a focus on problem-solving
- High demand for skilled marine trades people
- Cost and time-effective career preparation
- Blending of instruction, labs, and project work
- Dedicated faculty with real-world experience
- Professional network for life
- Transformational experience
