## MARINE SCIENCE SCIENCE FELLOWSHIP

FOR HIGH SCHOOL STUDENTS

Spring Semester: March–June 2026

Join us for a semester-long marine science field and research learning opportunity that goes far beyond the classroom!

This indepth introduction to the marine sciences includes hands-on field investigations, scientific inquiry skills and practices, and conversations with local scientists, conservationists, and other career professionals in the marine sciences fields.

**As a Marine Science Fellow, you will:**

- Attend Saturday courses for 11 weeks led by SSC instructor.
- Explore a variety of marine science careers and topics.
- Create your own research project with the guidance of a mentor.
- Learn how to create and present a poster of your research findings.
- Have the opportunity to earn credit through your school and/or VLACS.

Application  
Deadline  
**3/23/26**

Sponsored by  DELTA DENTAL
